

1385 - Gibraltar Mines, McLeese Lake, B.C.

Gibraltar, co-owned by Taseko and Cariboo Copper Corp., is a copper-molybdenum mine located in south-central British Columbia, about 60km north of the city of Williams Lake. As part of its GDP3 mine expansion – to increase the annual copper production to

180 million pounds – BuildWorks contracted to construct this Model XP-40 MegaDome pre-engineered fabric covered structure, to provide practical and efficient work and storage space. The total project delivery from order to completion spanned just 6 weeks.
