Riding Arena

A New Arena for New Beginnings – When the local riding facility closed, one Chilliwack family decided to create the perfect solution for their daughter: a private MegaDome® riding arena. Measuring 70' wide x 150' long, this bright, open-span structure was completed in under 14 days, ensuring minimal disruption and a quick transition

back into the saddle. The naturally lit interior and spacious design provide year-round comfort and protection from the elements, making it an ideal environment for riding and training. Built strong and built fast, this new arena guarantees many years of memorable rides ahead.
