INDUSTRIAL

Good Products Deserve Good Cover—Since 1955, Standard Building Supplies has been Metro Vancouver’s trusted source for premium lumber, engineered wood, and construction materials. Serving contractors, builders, and the film industry from locations in Burnaby and North Vancouver, Standard understands that quality products must be protected from the elements—because lumber that warps in the yard can’t be delivered

with confidence.

To expand its weather-protected storage capacity, Standard partnered with MegaDome again to install a 2,500-square-foot EZ40 MegaDome extension, custom-engineered by the BuildWorks team. The new structure helps keep valuable building materials dry, protected, and ready for delivery—ensuring customers receive their supplies in top condition, every time.
